

IRIS

Adventure range

Works with the engine **RUNNING** or **STOPPED**

ECOLOGICAL COOLER
STAND-ALONE EVAPORATIVE SYSTEM

CLEAN AIR, HEALTHY AIR, NATURAL AIR

IRIS is the best ecological cooler for motorhomes. Provides a healthy feeling of well-being inside the vehicle, due to its unique evaporation system that produces moisture and cooling.

It is the most environmentally friendly option as it does not use gases or chemicals. It is specially designed for family and pets because it prevents sudden temperature changes while distributing healthy, fresh air over long periods of time, keeping humidity at its ideal level.

High performance electronic cooler

Low power consumption at 12V

Operation of functions by remote control

Highly resistant structure

Aerodynamic and quiet design

Total adaptability to your vehicle

Minimal maintenance

Especially recommended

Improved performance in dry environments

For the whole family

The best environment for your pets

For your asthma problems

For allergy sufferers

For older people

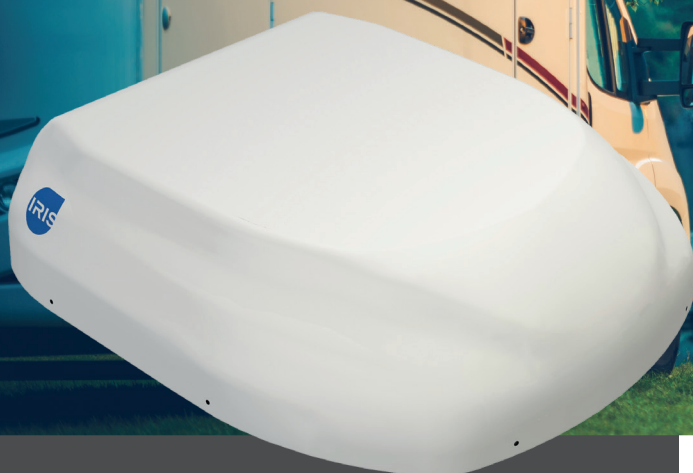

Adventure range

YOUR COMFORTABLE WAY OF LIVING

COMPLETE FREEDOM

Use it while driving as an A/C booster for your caravan or enjoy it when you stop any time anywhere.

Not dry out the air, but humidifies and purifies the environment.

**ECO-FRIENDLY:
NO NEED TO
CONNECT TO THE
THE MAINS AND
HAS LOW WATER
CONSUMPTION**

FULLY STAND-ALONE UNIT, WHEREVER YOU ARE

IRIS works with the engine running or stopped. Feel the freedom in your stops outside the campgrounds, enjoying nature with a pleasant and healthy indoor environment.

It renews the air in the passenger compartment and creates a clean and healthy atmosphere with simple and economical maintenance. ➤➤

MAIN FEATURES

High autonomy and capacity

» Equipped with a single, high autonomy, anti-spill water tank integrated in the compact roof unit.

Quiet engine and water pump

» Its powerful double turbine motor generates an air flow of 420 m³/hour. Optimized to operate with reduced water consumption.

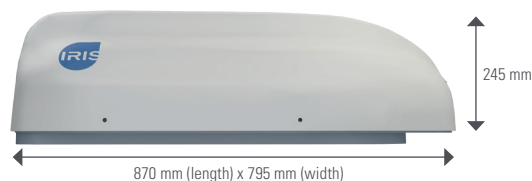

Microprocessor and remote control

» Electronic ventilation control. Time of use programmer. Water level and pump operation control.

CLEAN AND HEALTHY ENVIRONMENT

IRIS optimally cools vehicles up to 8 linear metres. Its aeriform particle evaporation system creates a pleasant indoor environment without the need to keep skylights, doors or windows closed; the other way round, it is necessary to open one of the skylights or windows by 2 cm to create a correct air circulation and humidity control. ➤➤

Inner console, with 6 directional diffusers

Radio frequency remote control
